

# Video Messenger

Easily record memos for yourself, your family and friends!

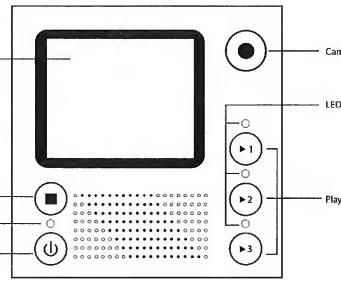

- Share videos with your family and friends
- Built in camera and microphone
- Record or play video in one click
- Built-in magnet

Thank you for purchasing our products, this Halo Color Video Messenger is an easy-to-use video memo recorder which has a built-in camera and a LCD screen for you to record and receive video messages simply by clicking a button. With the built in magnet it can be easily attached to most metal surfaces such as your fridge or placed on table top anywhere in your home. Enjoy it!

#### Main Features:

- Record and play video memos among your family, roommates and friends
- Clear view and high resolution video
- Easy to use, click and record, no software installation required
- 1.5-inch true color TFT-LCD display
- Recording capacity: (3) three 60-seconds-length video memos
- (3) Three unread message LED indications
- Re-recordable as many times as you wish
- Built-in magnet to attach to any metal surface (such as on fridge)
- Built-in high sensitivity microphone and high quality speaker to deliver excellent sound quality

1. Load the batteries (included). Use AAA (2 required) size batteries. Open the battery compartment and load the batteries according to the polarity indicated inside the battery compartment.  
NOTE: Do not mix alkaline and NI-MH rechargeable batteries.  
2. Press the Power Button for one second to turn power on or off.  
NOTE: This device will power off automatically if it is idle for 10 seconds.  
3. Press REC button to start recording, and press REC button again to stop recording. (The device will stop recording automatically when recording reaches 60 seconds)

- There are 3 memories that allow you to record 3 video messages; each message is up to 60 seconds time length.
- While recording, press the POWER button to stop recording without saving the message.
- When a video message is recorded, the LED light will be blinking until the message is played.
- The latest recorded message will be always saved at the memory #1, and move the last recorded message to next memory position (# 2, and then #3).
- Press the PLAY button to play or pause the recorded video messages.
- Make sure all the messages have been played before you remove the batteries, otherwise the video messages will be erased.
- Do not take the batteries out when the device is powered on; otherwise the recorded video messages will be erased.
- Please load new batteries when "Battery Low" message displayed on the LCD screen.

#### Maintenance

Always keep your video memo in proper condition.

##### 1. Video Memo

- Use dry, soft, and clean cloths to wipe off the fingerprint and the dust on the lens and LCD.
- Do not put the device in the sun or in high-temperature environment.
- If you bring the video memo from a low temperature environment to a warm environment, wait a few minutes.
- Battery
- Do not mix alkaline and rechargeable batteries.
- It is normal that batteries generate heat while using. However if you feel it may be over-heated you can turn the device off for a while.
- Remove "dead" batteries as soon as possible since they are more likely to leak. If the unit will not be used for several months, remove the batteries, as they could leak during that time.
- All batteries should be replaced at same time. Do not mix fresh and used batteries. Do not dispose of batteries in a fire, as they may explode.
- Do not attempt to open batteries, as they may lead to overheating, distortion of the equipment, fire, electrical shock or other hazards.

#### Security

- To avoid the danger of electric shock, do not open the device or fix the device by yourself.
- Keep the device in dry condition, the humidity may cause the failure of the video memo.
- Stop using the device immediately if the video memo becomes affected by dampness. It is necessary to air dry the device before reusing it.

#### Specifications

#### Declaration of Conformity

##### FCC PART 15 STATEMENT

This device complies with Part 15 of the FCC Rules. Operation and use is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

The CE Mark is a Directive conformity mark of the European Union.

#### Information on disposal for users

In the European Union, if your product is marked with this symbol, it means that used electrical/electronic products should not be mixed with general household waste. There exists a separate collection system for these products. Used electric/electronic equipment must be treated separately and in accordance with legislation that requires proper treatment, recovery and recycling of these products.

Following the implementation by member states, private households within the EU states may return their used electrical/electronic equipment to designated collection facilities free of charge\*. In some countries your local retailer may also take back your old product free of charge if you purchase a similar new one.

\*Please contact your local authority or call 1-800-RECYCLE for further details.

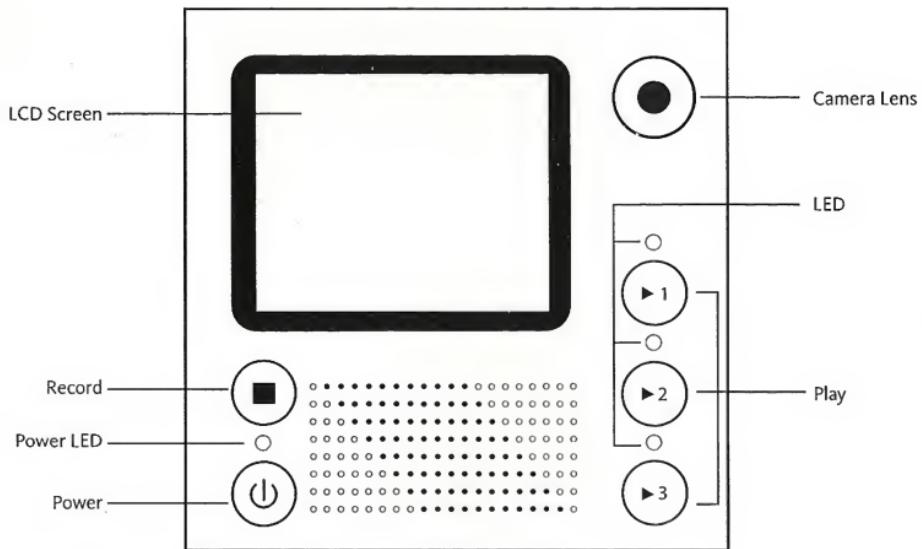

By disposing of this product correctly you will help ensure that the waste undergoes the necessary treatment, recovery and recycling and thus prevent potential negative effects on the environment and human health which could otherwise arise due to inappropriate waste handling.

## Specifications:

- Display: 1.5" TFT
- Memory: Internal
- Capacity: 3 x 60 seconds
- Power: 2x AAA (included)
- Battery lifetime: 2 ~ 3 weeks
- Camera
- Microphone
- Speaker

Easily record memos for yourself, your family or friends. The 1.5" true color TFT screen offers a good video quality with high resolution. Easy to use, no need to install software or to do a setup. The recorder offers three memory positions at which you can record a 60 seconds long memo. The LEDs indicate if there is a new recording which has not been viewed. The built-in magnet allows you to attach it to any metal surface, for example a fridge.
